

From open enrollment to running reports, **We have you covered.**

With iSolved's Benefits program, both you and your employees experience a streamlined, intuitive and user-friendly process that is determined by YOU. Full integration with payroll means no double entry or costly mistakes.

Open Enrollment

- Benefits are programmed using logic provided by YOU
- **Employee Self-Service** so your employees can access benefits in a user-friendly interface, available from anywhere at any time
- Benefit options can be presented clearly
- **Step by step process** increases employee engagement and usage
- **Built-in tracking and monitoring** features with periodic reminders
- Provide accurate data to carriers
- **Communicate** open enrollment dates, meetings, locations, deadlines, and more
- **Schedule email alerts** to make sure enrollment deadlines aren't missed.
- **Structure welcome messages and documents** to communicate to employees what needs to be reviewed and acknowledged.

Life Events

- **Easy to update** life events such as marriage, children, etc.
- Access previous benefit enrollments, current benefit enrollments.

Reports

- Easy to use filters to create reports and statements
- Easily provide benefits statement for employees, including employee total cost
- Produce a report that will summarize what coverage employees have
- Integrated ACA reporting - so no headaches completing 1095 forms at year end!
